

## Fall-Related Emergency Department Visits for Older Adults – Statistics in Haldimand and Norfolk

- ❖ The rate of fall-related ED visits among Haldimand and Norfolk seniors 65 years and older has increased 4.8% from 6261 per 100,000 in 2011 to 6564 per 100,000 in 2016.
- ❖ The number of fall-related ED visits among Haldimand and Norfolk seniors has increased over the past decade, likely due to the increasing population of seniors in Haldimand and Norfolk.
- ❖ From 2011 to 2016, the number and rate of ED visits due to falls increased in Haldimand and Norfolk, and the rates were greater than the Ontario rates.
